

Tremendous Food Donations to Paca House

Paca House in Baltimore has been supporting residents' evolving needs during the COVID-19 pandemic. Our critical project partner and on-site provider of supportive services, Volunteers of America Chesapeake and the Carolinas (VOACC) has partnered with Food Rescue Baltimore to provide prepared meals to the 92 residents twice a week, residents receive enough meals for a week! Thanks to Volunteers of America's relationship with Holly Produce they were able to bring 24 cases of chicken, and 2700 pounds of fruits and veggies that were distributed to residents last week. Panera Bread has stepped up to donate food to Paca weekly too. Our Rockstar on-site staff picked up an additional 40 food pantry donations as we work to create an on-site food pantry that residents can access as needed. Special thanks to our on-site management team, Residential One for being all hands on deck in this crisis response.
